Version 3.2 - Effective 1 January 2026

1. About NovaMart

NovaMart is an online store that sells electronics, home appliances, fashion, grocery items and everyday essentials through its website and mobile app. This handbook explains how NovaMart customer support works and what customers can expect for orders, payments, shipping, returns, refunds, warranty and account security. It is written for customers and for support agents so that everyone gives and receives the same answers.

Every request receives a ticket number in the format NM-123456. Please keep the ticket number and quote it whenever you contact support again about the same issue.

3. Account and security

3.1 Creating an account

You can register with an email address or a mobile number. A one-time verification code (OTP) is sent to confirm your details. The code is valid for 10 minutes.

3.2 Forgot password

1. On the login screen tap **Forgot Password**.
2. Enter your registered email or mobile number.
3. Open the reset link or enter the OTP you receive. The reset link is valid for 15 minutes.
4. Choose a new password with at least 8 characters, including one number and one capital letter.

3.3 Locked account

After 5 wrong password attempts your account is locked for 30 minutes for your protection. You can wait for the lock to end or reset your password to unlock it immediately.

3.4 Two-factor authentication (2FA)

2FA is optional but recommended. Turn it on under Settings > Security. NovaMart staff will never ask you for your password or OTP, by phone, chat or email. If someone asks, do not share it and report it to support immediately.

3.5 Deleting your account

Open Settings > Privacy > Delete Account to send a request. Deletion is completed within 14 days. Pending orders, refunds and unused NovaPoints must be settled first; deleted accounts cannot be recovered and unused points are lost.

4. Orders and payments

4.1 Payment methods

- Credit and debit cards (Visa and Mastercard)
- Mobile wallets and bank transfer
- Cash on Delivery (COD) for orders up to $200
- Gift cards and NovaPoints (can be combined with any other method)

4.2 Changing or cancelling an order

You can edit the delivery address or items free of charge within **1 hour** of placing the order. You can cancel an order any time before its status changes to **Shipped**. Once an order is shipped it cannot be cancelled; you can refuse the parcel at the door or return it after delivery under the Returns Policy.

4.3 Order statuses

Status	Meaning
Confirmed	Payment received or COD accepted; order is being prepared
Packed	Items are packed and waiting for the courier
Shipped	Handed to the courier; a tracking number is available
Out for delivery	The courier will deliver today
Delivered	Parcel was handed over to you or a person at your address

4.4 Payment failed but money was deducted

This sometimes happens when the bank connection drops. In most cases the amount is automatically reversed to your account within 3 to 5 business days. If it is not reversed after 5 business days, contact support with your order number, the transaction ID and a screenshot of the deduction message.

5. Shipping and delivery

NovaMart delivers with trusted courier partners. Delivery times start after the order is **Shipped**, not from the moment you place it. Business days are Monday to Saturday and exclude public holidays.

- **Standard delivery:** 3 to 5 business days, $4.99. Free on orders above $50.
- **Express delivery:** 1 to 2 business days, $9.99.
- **Same-day delivery:** available in selected cities only, $14.99.
- **International delivery:** 7 to 14 business days, flat $24.99.

Failed delivery: the courier makes up to 3 delivery attempts. After the third failed attempt the parcel returns to the NovaMart warehouse and a refund is processed, minus the shipping fee for prepaid orders. You can change the delivery address only before the order is Shipped.

6. Returns and refunds

6.1 Return window

Most items can be returned within **14 days** of delivery. Electronics and mobile phones have a shorter window of **7 days**. Items must be unused, in original packaging with all tags, accessories and the invoice.

6.2 How to return an item

1. Open My Orders and select **Return Item**.
2. Choose the reason and upload photos if the item is damaged.
3. A courier collects the parcel from your address.
4. The refund is issued after the item passes inspection.

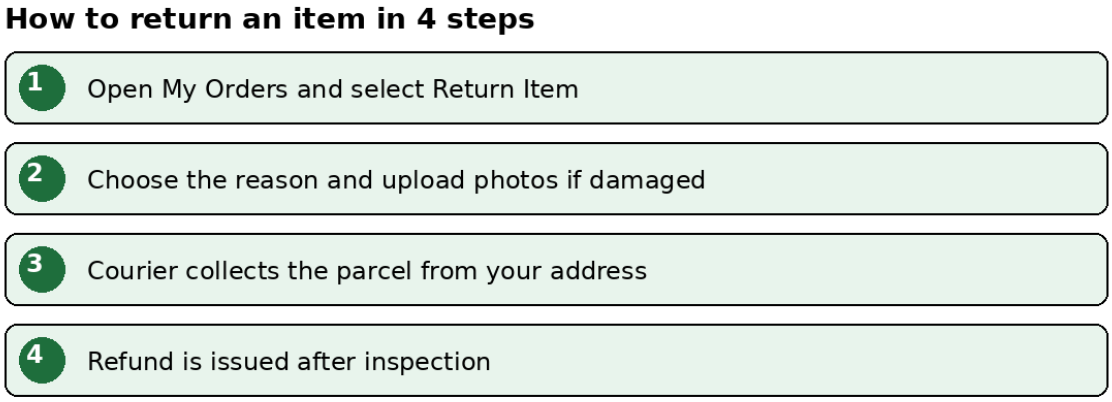

Figure 2 - Return process

6.3 Who pays for return shipping?

- **Damaged, defective or wrong item:** return pickup is free. Report it within **48 hours** of delivery with photos or a short video of the parcel and item.
- **Change of mind:** a return shipping fee of $3.99 is deducted from the refund.

6.4 Items that cannot be returned

- Perishable food and grocery items
- Opened underwear, swimwear and personal care items
- Gift cards and digital downloads
- Customized or personalized products
- Clearance items marked *Final Sale*

6.5 Refunds

Refunds go back to the original payment method. The refund process starts 1 to 2 business days after the returned item reaches our warehouse and passes inspection. The time it then takes to appear in your account depends on how you paid, as shown below. For Cash on Delivery orders you choose between bank transfer and store credit.

Refund timelines after inspection

Original payment method	Time to receive refund
Credit / debit card	5-7 business days
Mobile wallet	1-2 business days
Bank transfer	7-10 business days
Cash on Delivery	7-10 business days (bank transfer or store credit)
NovaPoints / gift card	Instant

Figure 3 - Refund timelines by payment method

If an item fails inspection (for example it is used or damaged by the customer) it is sent back to you and no refund is made.

7. Warranty and repairs

Product type	Warranty period
Electronics and home appliances	12 months manufacturer warranty
Accessories (cables, chargers, cases)	6 months
Fashion and grocery	No warranty; see Returns Policy

7.1 What you need

Keep your NovaMart invoice. The warranty starts on the delivery date and a valid invoice is required for every claim.

7.2 What is not covered

- Physical damage such as drops, cracks and bent parts
- Water or liquid damage
- Repairs or opening of the product by an unauthorised person
- Normal wear and tear and cosmetic scratches

7.3 Repair process

Create a warranty request in My Orders > Request Warranty. A repair normally takes 7 to 10 business days. If the product cannot be repaired, NovaMart replaces it with the same or an equivalent model. A replacement does not restart the warranty; the remaining period continues.

8. Troubleshooting guide

Problem	What to do
App crashes or does not open	Update the app to the latest version, restart the phone, clear the app cache. If it continues, uninstall and reinstall the app.
Order tracking not updating	Tracking can take up to 24 hours to refresh. If there is no update for 48 hours, contact support with your order number.
Coupon code not working	Check the expiry date and the minimum order value. Only one coupon can be used per order and coupons cannot be combined with Clearance items.
Did not receive OTP	Wait 60 seconds and request again. Check the number is correct and that SMS or email is not blocked. You can request at most 5 OTPs per hour.
Wrong item delivered	Report within 48 hours with photos. A free return pickup and replacement or refund will be arranged.
Parcel marked Delivered but not received	Check with neighbours or the building reception, then contact support within 24 hours so we can investigate with the courier.

9. Complaints and escalation

If your issue is not solved by the first agent, you can ask to escalate it. Escalation moves the ticket upward through four levels: Level 1 Support Agent, Level 2 Senior Agent, Level 3 Team Lead and Level 4 Customer Care Manager. Always keep your ticket number ready. Each level has its own first response time, shown in the figure.

Escalation matrix and response times

Level	Handled by	First response time
Level 1	Support Agent	Chat: 15 minutes / Email: 24 hours
Level 2	Senior Agent	4 hours
Level 3	Team Lead	24 hours
Level 4	Customer Care Manager	48 hours

Figure 4 - Escalation matrix and response times

When to escalate

- No reply within the response time of your current level
- A refund is delayed beyond the timeline for your payment method
- You received incorrect or conflicting information from support
- Your issue involves account security or suspected fraud (escalate immediately)

10. NovaPoints and coupons

Customers earn **1 NovaPoint for every $1** spent on eligible items. **100 NovaPoints equal $1** of discount at checkout. Points expire **12 months** after they are earned. Points are not earned on shipping fees, gift cards or returned items; points earned from a returned order are removed.

Tier	Yearly spend	Benefits
Silver	$0 - $499	Standard earning rate
Gold	$500 - $1,499	1.25x points and early access to sales
Platinum	$1,500 and above	1.5x points, free express delivery on orders above $30

Coupon rules

- One coupon per order; coupons cannot be combined with each other.
- Coupons are not valid on Clearance items or gift cards.
- A coupon used on an order that is later cancelled is returned to your account if it has not expired.
